

Before the flash

1. **Face the camera. Big smile, show your teeth.**
2. **Hats and sunglasses off.**
Unless they're part of the look.
3. **Hands and props away from your face.**
4. **No silly faces.**
The AI takes them seriously.
5. **Groups: stand side by side, about the same height.**

Nobody hiding in the back.

PRINT THIS • TAPE IT BY THE BOOTH

Antes del flash

1. **Mira a la cámara. Sonrisa grande, que se vean los dientes.**
2. **Quítate la gorra, el sombrero y los lentes de sol.**
A menos que sean parte del look.
3. **Manos y accesorios lejos de la cara.**
4. **Nada de caras chistosas.**
La IA se las toma en serio.
5. **En grupo: uno al lado del otro, más o menos a la misma altura.**
Que nadie se esconda atrás.

IMPRÍMELA • PÉGALA JUNTO A LA CABINA

Why the card works

AI booths rebuild the guest's face from the photo you give them. A bad source photo can't be fixed by any prompt.

- **Teeth:** if the photo has no smile, the AI has to invent one, and that's where faces stop looking like the guest.
- **Hats, sunglasses, hands:** anything covering the face is something the AI has to guess.
- **Silly faces:** the AI keeps the expression and stretches the face to match it.
- **Groups in a row:** booths read faces left to right. Crouched or stacked guests get their faces put on the wrong bodies.

THE GROUP FIX: PASTE THIS NEAR THE TOP OF ANY PROMPT

Works with any prompt, ours or anybody's, on any booth app.

Keep exactly the same number of people as the original photo, in the same left-to-right order. Each person stays a separate, recognizable individual with their own face, skin tone and hair. Do not swap faces between people, merge bodies, or add extra people.

Test before every event. Run one photo of a single guest, one of three people, and one with a different skin tone from the first. One test photo hides problems.

Need prompts for the events you actually get booked for?

Birthdays, quinces, weddings, graduations, company parties. The First Bookings Bundle has 10 event packs plus a setup checklist.
